

TSS Tools

INSTALLATION GUIDE

www.tss.link

December 2020

1. Install _tss Tool

- a. Run `tool/Installer.exe` (i.e. LocatorInstaller.exe) as administrator.

In some computers, depending on the security level installed, it is very important to remember that you must have Administrator rights in order to perform the installation process.

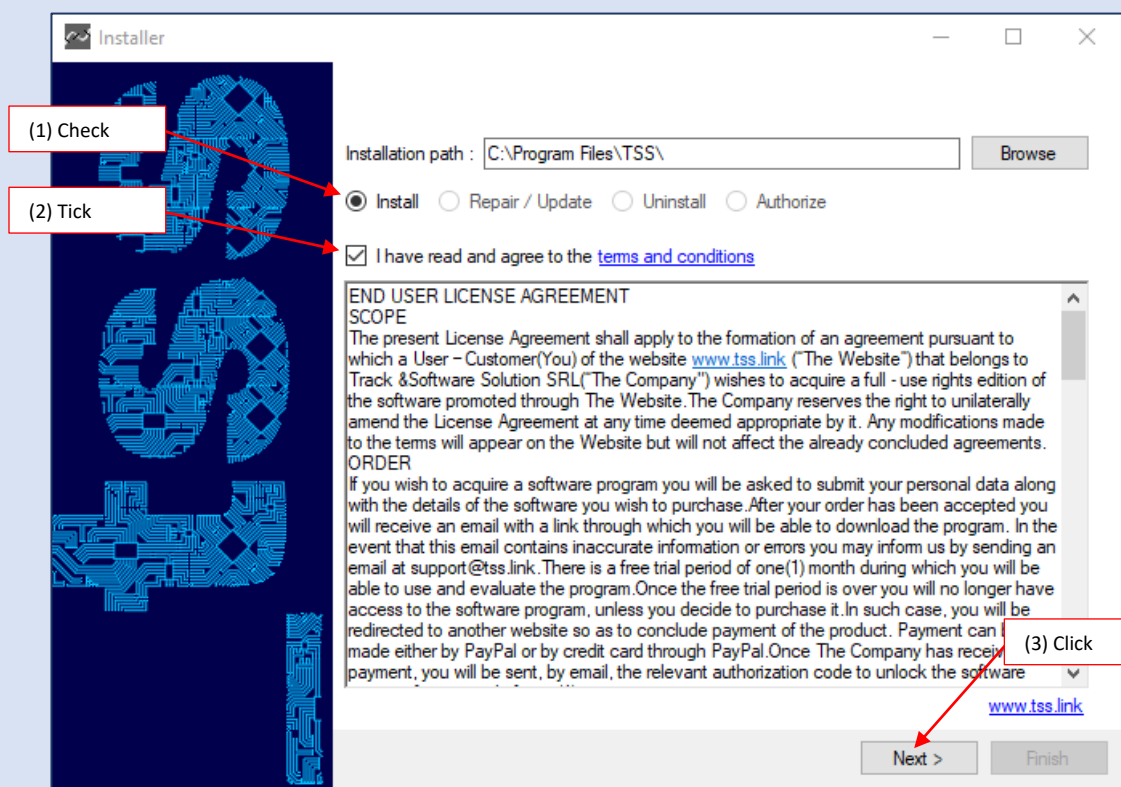

In such cases, please contact your System Administrator to help you perform the Installation of _tss Tool.

- b. On the first form do the following actions:

(1) Check [Install],

(2) Tick [I have read and agree to the terms and conditions] and

(3) Click [Next] button.

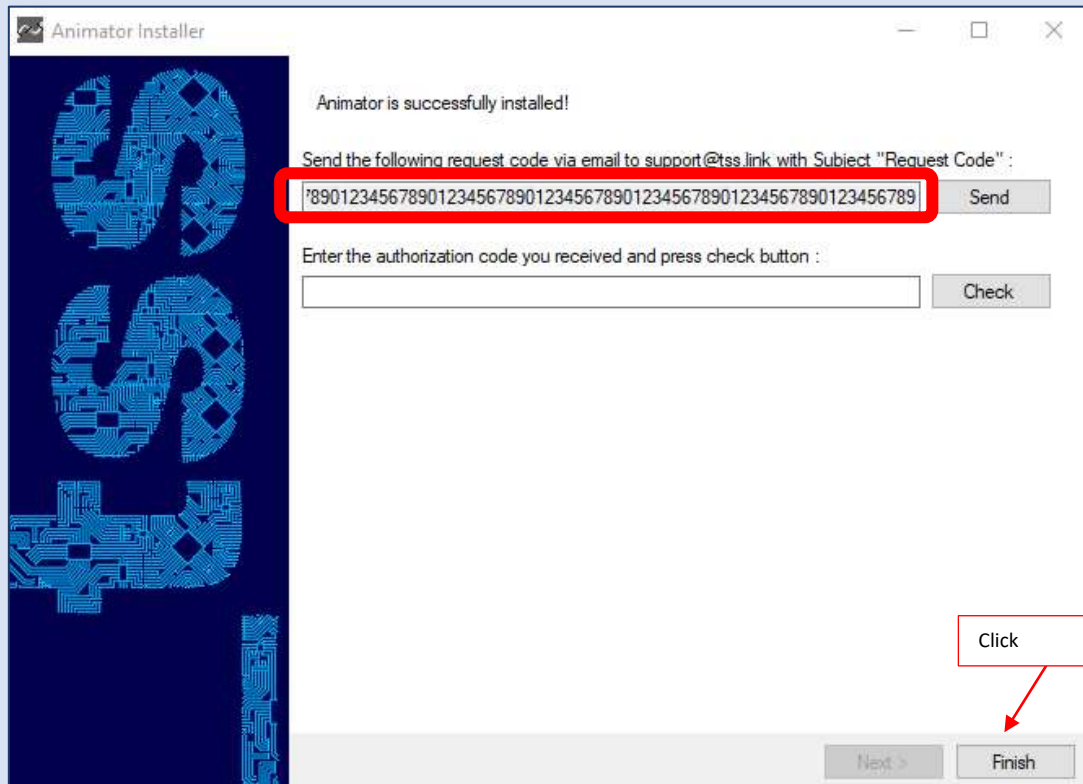

By the time you accept the [Terms and Conditions] and you Install _tss tools, you are granted a one (1) month Trial Period.

TSS has chosen to provide such an extended trial period to all users so that they have plenty of time to test the Tools and get acquainted with the environment, the possibilities and the prospects that are offered with all _tss Tools installed.

- c. After you press the [Next] button, a Request Code gets generated on the updated form. (see next picture on the following page).

Important Note: Keep the Request code and send it to support@tss.link after you purchase your _tss tool (see [par.2.b.1](#))

- d. Click [Finish] button and your **_tss** tool will have been installed at the Installation path (proposed in the previous screen).

- e. Open Autodesk® AutoCAD® and check **_tss** ribbon! Click on the installed **_tss** tool's buttons in the relevant panel on **_tss** ribbon.

Please note that TSS ribbon comes with all buttons on it, so that you always have an idea of other capabilities that are provided.

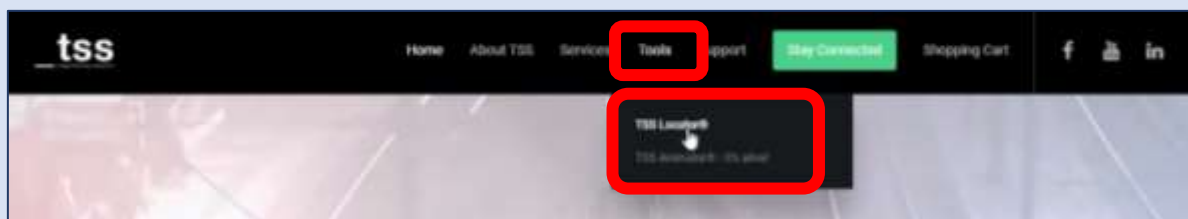

The buttons are not active, until you choose to install another **_tss** Tool.

Please visit www.tss.link to check on all our tools and choose which suits your needs best.

2. Authorize _tss Tool

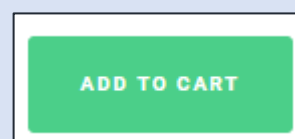

a. How to purchase a license for the desired _tss tool/s.

1. Go to <https://www.tss.link/> .
2. At the menu bar click on the _tss tool you want to purchase.
i.e. following is the link to Locator® web page: <https://tss.link/tools/locator/>

3. Scroll down to the bottom of the webpage of the Tool that you want:

- i. Provide your Name and email address.
- ii. Choose the AutoCAD version you are using.
- iii. Click on the [ADD TO CART] green button and you will be redirected at “your cart” at TSS Shopping Cart webpage.

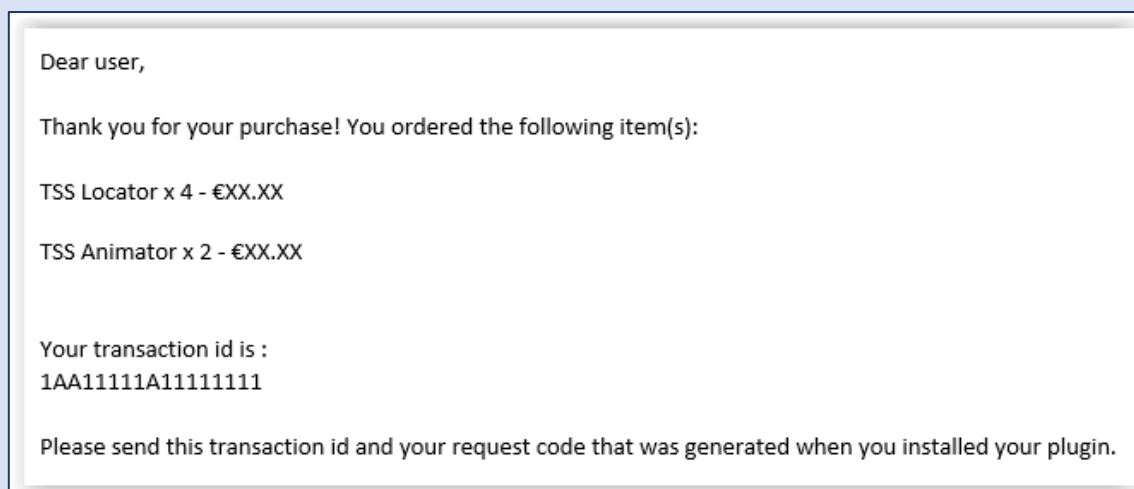

4. Select the Quantity of the Licences you want to purchase and then press the [Checkout with PayPal] yellow button.

Note: TSS has chosen to cooperate with PayPal®, as it is one of the most widely known and Secure Platform for Internet Transactions.

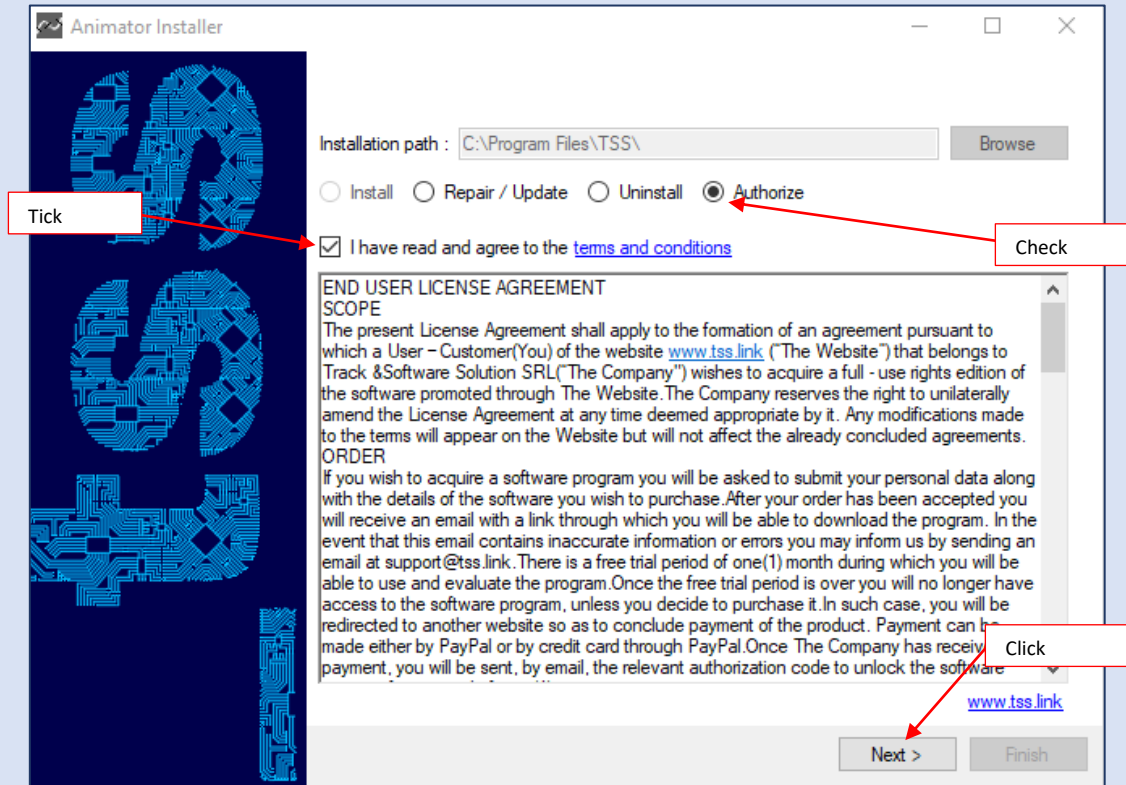

5. You will be redirected at PayPal® webpage, where you will be asked to sign in with your credentials.
In case you do not already have a PayPal account, you may either create one or directly use your card in PayPal secure environment.
6. After you complete the payment successfully, you will receive an email with the transaction id from support@tss.link.
Keep this mail for the next step.
See below an example of such an email.

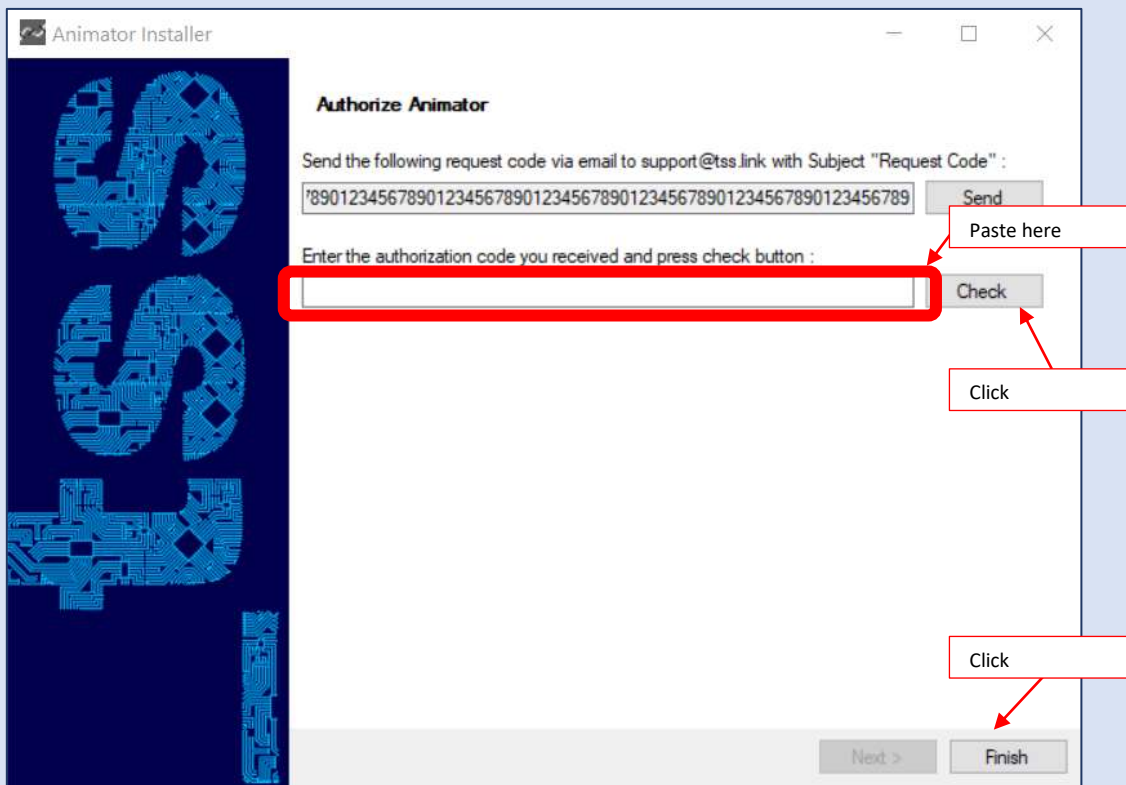

7. Note that you will receive a payment receipt from PayPal as well.

5. Tick [I have read and agree to the terms and conditions] and click the [Next] button.

6. On the next form at the second field paste the Authorization Code you received by e-mail and click [Check] button. You will be informed about the date until when you are licenced to use your _tss tool.

7. Click [Finish] button.

8. Open AutoCAD and check TSS ribbon! Click installed **_tss** tool buttons in the relevant panel on TSS ribbon

Note: In case you purchased **_tss** tool licenses for more than 1 computer

1. send the transaction id to the users
2. the users have to send an email to support@tss.link including the transaction id and the Request Code that was generated from their computers when they installed the **_tss** tool
3. the users have to follow the instructions starting from step [par.2b1](#)

3. **Repair / Update _tss Tool**

In case you need to Repair or Update Locator, please follow the steps below:

- a. Run *tool/Installer.exe* (i.e. *LocatorInstaller.exe*) as administrator
- b. (1) Check [Repair / Update],
(2) Tick [I have read and agree to the terms and conditions] and
(3) Click [Next] button
- c. In case you have a valid license, at the next form click [Finish]
- d. In case you do not have a valid license, validate your license following the steps at [par.2 above](#)

4. **Uninstall _tss Tool**

- a. Run *tool/Installer.exe* (i.e. *LocatortInstaller.exe*) as administrator
- b. Check [Uninstall] and Click [Finish] button

Thank you for choosing TSS Tools for boosting your productivity in drafting.

TSS Team.
